1. The following factories are located at Comarnic:
  - a. The Viitorul cement factory which is located near the railroad station, employs between 300 and 400 workmen in three shifts of eight hours each.
  - b. The Vulturul factory employs between 600 and 700 workmen. The output consists of tiles for ovens and furnaces.
2. At Gura Beliei located 2.8 kilometers south of Comarnic, there is a chalk, plaster and lime factory.
3. At Banesti there were several dangerous curves on the road leading to Campina. In March 1950, the Sovromconstructie firm started work on a large concrete highway bridge to span these curves. This bridge, which was planned to have a length of more than 500 meters, was to be completed within one year. In January 1951, work was in progress on the abutments.
